PROFESSIONAL SUMMARY

Business development professional currently at **CIEL HR**, with a foundation in PHP, Laravel, and WordPress plus earlier client-facing sales experience. Combines hiring-mandate ownership and CRM-driven outreach with a practical understanding of technical roles, so client conversations stay grounded in what teams actually need.

PROFESSIONAL EXPERIENCE

Business Development Executive

May 2025 – Present

CIEL HR

- Own client relationships for manpower and staffing mandates, with a focus on technical and fresher hiring needs.
- Source and qualify companies with bulk hiring requirements, map job roles, and keep requirements moving through the pipeline.
- Coordinate between clients and internal delivery so openings, role briefs, and follow-ups stay accurate and timely.
- Track leads and conversations in CRM tools and follow through until mandates convert into active hiring work.

Laravel Developer

June 2024 – March 2025

IconicPages

- Worked with front-end developers to ship responsive UI using Laravel Blade templates.
- Optimized MySQL queries and designed schemas for efficient storage and retrieval.

Relationship Manager

May 2023 – January 2024

NoBroker Technologies Pvt. Ltd.

- Spoke with clients daily, captured pain points, and fed those insights to product and tech teams.
- Maintained dashboards and used CRM tools to keep communication structured and timely.

WordPress Developer Intern

December 2021 – June 2022

Vercis Infotech Pvt. Ltd.

- Built custom WordPress pages and improved on-page SEO.
- Integrated REST APIs for contact forms and other site functionality.

TECHNICAL SKILLS

Languages: PHP, JavaScript, HTML, CSS

Frameworks & tools: Laravel, WordPress, Git

Database: MySQL

Other: REST APIs, SEO, website deployment (XAMPP/localhost), CRM, client communication

PROJECTS

- **Custom Portfolio Website (PHP + MySQL)** — Personal site with an admin panel to manage contact-form submissions.
- **WordPress Lead Generation Pages** — Landing pages integrated with CRM tools to capture leads more efficiently.
- **E-commerce Feature Integration** — Laravel product listings, contact forms, and SEO improvements.
